Getting To Know You

Welcome to Apple Class Nursery. This half term we will model how to access and look after our resources within the classroom. We will also support the children in developing good relationships with their peers and staff.

To help us get to know your child, it would be really useful if you could complete the All About Me booklet and return it as soon as possible. This will help us stimulate discussions and activities with the children.

Within our daily routine we will provide opportunities for outdoor play, free choice activities and participation in an adult-directed task. Adults also intervene in the children's play as teachable moments occur, thus extending their learning and identifying next steps.

Within the next few weeks you will have the opportunity to visit us alongside your child to participate in a full Nursery session. We hope this will give you an insight into how teaching and learning takes place. It will also provide an opportunity for you to help us get to know your child.
